Subject: Limited Modular approval request

FCC ID: U2M-PCE4551AH

Date: September 27, 2013

Dear reviewer:

The modular would like to have authorization as a limited modular approval.

The requirements of section 15.212 have been met and shown on the following statements

- 1) The radio elements of the modular transmitter must have their own shielding  
The modular has shielding. Please refer to external photo.
- 2) The modular transmitter must have buffered modulation/data inputs  
The buffer is integrated with QCA9890
- 3) The modular transmitter must have its own power supply regulation  
The part No. of regulator is RT8010
- 4) The modular transmitter must comply with the antenna and transmission system requirements of §§15.203, 15.204(b) and 15.204 (c).  
No external amplifier is used for this module. 15.203 requirements does not apply to this module since this module is professionally installed.
- 5) The modular transmitter must be tested in a stand-alone configuration  
The modular is tested in a stand-alone configuration via an extender. Please refer to test setup photo.
- 6) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.  
The modular complies with the requirement. Please refer to label location and label sample exhibit.
- 7) The modular transmitter must comply with any specific rules or operating requirements  
The modular complies with the requirement. Detail information please refer to user manual
- 8) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.  
The modular complies with the requirement for mobile and fixed installation. Please refer to RF exposure exhibit

Please contact me if you have any questions about this letter.

Best regards
